

GHS PICTOGRAM TRAINING GUIDE

GHS-compliant labels contain one or more standardised pictograms, which communicate important information about chemical hazards in your workplace.

Print this free training guide and post it around your facility to increase safety and remind employees about the nine GHS pictograms and their meanings.

Chemical / Physical Risk	Health Risk	Health Risk	
<p>Exploding Bomb</p> <p>Explosives, self-reactives, organic peroxides</p> 	<p>Corrosion</p> <p>Corrosives</p> 	<p>Environmental</p> <p>Aquatic toxicity</p> 	
<p>Flame</p> <p>Flammable gases, liquids, and solids, self-reactives, pyrophorics, self-heating</p> 	<p>Skull & Crossbones</p> <p>Acute toxicity (severe)</p> 		
<p>Flame Over Circle</p> <p>Oxidisers gases, liquids and solids</p> 	<p>Exclamation Mark</p> <p>Irritant, dermal sensitiser, acute toxicity (harmful)</p> 		
<p>Gas Cylinder</p> <p>Compressed gases, liquefied gases, dissolved gases</p> 	<p>Health Hazard</p> <p>Carcinogens, respiratory sensitisers, reproductive toxicity, target organ toxicity, germ cell mutagens</p> 		
<p>Corrosion</p> <p>Corrosives</p> 	<p>To learn more about GHS labelling and compliance, visit accidental.com.au</p>
